Dear Parents,

Greetings from Suguna PIPS!

We at Suguna PIPS always work for the betterment of our students and we want to give the best to them so that they can cope with the upcoming trends of the society.

Our children today spend their day primarily sitting down and following a schedule at school. When they leave school it is important for them to have time to be creative and do something they enjoy. It has been reaffirmed that participation in after-school activities results in better grades, better behavior in the classroom and better work habits, which are all necessary for success later in life.

Keeping all this in consideration, we are happy to inform you that we have started the **Suguna Art Academy**.

As parents, you are interested to mould your child in the area of their interest. Due to your busy schedule and safety reasons you have to either depend on somebody to take them to these classes or you deprive them from these activities. We have planned to offer after-school activities in the school campus ranging from sports to music to help our students to become more well-rounded individuals.

We hope to give students the benefit of our latest state of art stadium and various cultural activities, which will be scheduled after school hours between 03:10p.m to 05:00 p.m.

Students under the guidance of competent professionals will have the chance to explore their individual skills and aptitude. They will also have the opportunity to take part in competitions at various levels.

To cover costs, a **nominal annual fee** will be charged for the classes attended by your wards. It's a one-time payment and is **non-refundable**. School bus transport facility is available in the evenings.

Interested parents may choose from the list of activities and submit the consent form enclosed **on or before June 27, 2018**. Please note, each activity will be conducted only if there is a **minimum strength of 20 students**.

Let's together help our children in their holistic development.

Regards

L. Suguna
